

# RUSS PEAK'S

## A/V REQUIREMENTS

### I. LIGHTING

- Since Russ moves around during his presentation and is constantly interacting with his audience, we have found it works best if you leave the full house lights on during the program. Besides, studies show that your group will remember more and laugh more in the brightness.

### II. STAGE

- You will need to provide an adequate stage or space for this special type of performance. At minimum, a 16' x 28' space, big enough to fit at least 20-30 chairs across the stage - one row - in a wide arc. The bigger the stage the better. Also, the bigger the stage, the more chairs (and volunteers) that can be included in the hypnosis demonstration. And YES, a school gymnasium will be just fine.
- You (the client) will assume all responsibility for the safety of the riser or stage area, steps to the stage, and the chairs to be used during the performance. Please make sure all equipment is good condition. With so many audience participants, we do not want to take a chance of an injury.

### III. AUDIO

- For the "**Comedy Hypnosis**" presentation, please provide Russ with a sound system equipped with a **HAND-HELD WIRELESS** microphone.
- Russ will bring a music CD for the show. Please have a CD player that is hooked in to your sound system as well as someone to help control the 'play' button. Russ will go over music cues with his sound person before the show. Please have him or her arrive to meet with Russ 30 minutes prior to the show.
- In any case, remember that good sound is crucial to the success of your program. If your sound system and microphone are not adequate, borrow or rent quality equipment. Please check these requirements with your sound tech or feel free to have the sound tech call me at 971-241-3879 for further assistance.

### IV. PERMISSION SLIPS

- Russ brings up between 30 and 45 volunteers for the show. He does not require permission slips. In fact, permission slips hinder the ability to choose qualified volunteers. If your school requires a permission slip, please have a minimum of 65 signed permission slips completed at least 3 days before the performance.

### V. RECORDING POLICY

- Audio/video taping of Russ Peak's presentation is allowed for internal use within your school. Russ Peak retains all commercial rights to video. Thank you for complying with this request.
